Dear Teacher,

From all the Richmond team we sincerely hope that this Teacher's Resource Book helps you and your students make the most of the **GO! 4** project. You will find the following three areas inside, each containing worksheets, their corresponding Answer key and where appropriate, the audio transcript. These areas are designed to cover all the possible needs, queries or difficulties your students may have.

Language:

The worksheets comprising this section focus on the vocabulary and structures presented in the Student's Book. You will find the most appropriate moment for the students to work with the material indicated in the Teacher's Book. To help with the mixed ability in your class we have provided the worksheets at three levels: The reinforcement worksheets have been created to ensure that all students have an opportunity to assimilate the essential structures. The consolidation worksheets will allow you to see how the students are progressing with their learning. The extension worksheets are for those students who can go a step further and may need the extra input to stimulate them. With these three levels we give all the children the opportunity of extra practice and development.

CLIL:

In this section you will find more practice to help your students understand the broader topics covered in lesson 4 of the Student's Book. Through interesting facts and details about the world and their environment, students gain new terminology effortlessly. All CLIL topics reflect areas that have been covered in their equivalent school subject, thus making their comprehension easier for the student.

Tests:

You will find four types of tests: a general diagnostic test, unit, term, and end of year tests. This format allows you to choose the most appropriate time to gauge the level of your students' understanding and assimilation of new language. The diagnostic test can be used both with new students and returning students as an indication for the teacher of the class level after the long summer holidays. The remaining tests are both varied and thorough and will consolidate the language worksheets. The tests include work on the four basic skills and include two different versions for the same unit based on level of difficulty in order to meet the needs of your students.

Warm regards,

The Richmond editorial team

MEASURING YOUR PULSE

NAME :

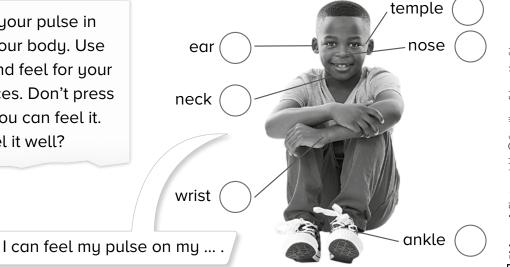

1 Read, guess and write. Then say.

All animals with hearts have pulse rates, but they are not all the same. Generally, small animals have fast heart beats and large animals have slow heart beats. So a child's heart beats about 80 bpm (beats per minute), but an adult's heart beats about 70 bpm.

2 Read, feel and tick \checkmark . Then say.

You can check for your pulse in different parts of your body. Use your two fingers and feel for your pulse in these places. Don't press hard! Tick where you can feel it. Where can you feel it well?

MAKING DOCUMENTARIES ABOUT ANIMALS

NAME :

CLASS :

1 Read and write.

We use special equipment to make documentaries about animals. When we film birds flying we can use a microlight to fly next to the birds. When we film in water, we use a waterproof camera. Filming sharks is very dangerous so we use a metal cage. We can also use a drone to help film things in difficult or dangerous places.

2 Answer the questions.

Imagine you are a documentary maker.

- 1 What animals do you want to make a documentary about?
- 2 Where do they live?
- 3 What do they eat?
- 4 What special equipment do you need?
- 5 What do you want to film the animals doing?

CLASS :

1 Read and write the season. Then match.

- 1 The farmer gives food made from cereals to the animals. Some animals don't go out in the fields because it is very cold.
- **2** This is a very important time on the farm. The farmer plants cereals and vegetables. Lots of the farm animals have babies.
- **3** The baby animals start eating grass in the fields. It's hot and sunny. The cereals and vegetables grow. It's time to pick strawberries and other fruit.
- **4** The farmer prepares for the cold weather and collects cereals to make into animal food. It's also time to pick fruit and vegetables, like apples, pears and pumpkins.

2 Look at Activity 1 and correct the sentences.

- 1 In spring, the farmer picks cereals and vegetables. The lambs have sheep. In spring,
